

**Specification:** Wall Vault®

Engineered product constructed of heavy gauge powder coated welded aluminum with gaskets and stainless steel hardware. The three-piece configuration, consisting of a removable vandal resistant panel, frame for mounting onto various wall types and to be used with our exclusive two-piece aluminum and/or stainless steel flanged Exit Seal with SiIX14™ gasket which comes with 20-year insured warranty. Allows for the electrical, cable, refrigeration lines, etc. to penetrate through a parapet or exterior wall. The Wall Vault® also allows for future penetrants if need be.

- WV 1017 standard size for up to 5—5000 series Exit Seals
- WV Custom call factory for sizing
