# BRICK Buddy

## P-WMB1

The Brick Buddy Wall Mount Bracket saves plumbers time and effort when installing outdoor hydrants

Mounted to inner wall ready for masonry to be installed around the Brick Buddy

Masonry finished with hydrant in place ready for use

## FEATURES & BENEFITS

- Adjustable from 1" - 6" wall thickness allowing for installation through all types of masonry - brick, stone, stucco or siding
- Adjustable screws for different flange sizes that will work with any model wall hydrant or sill faucet
- Easy installation for new construction homes saves time, takes the guess work out of locating the plumbing, and avoids the trouble of drilling through masonry walls
