

Gen-Eye X-POD[®]

Video Pipe Inspection System

The new Gen-Eye X-POD features a powerful new Command Module loaded with lots of great stuff. Always easy on your back and your budget, General versatile Gen-Eye X-POD now includes a USB port to record on a flash drive.

The lightweight X-POD combines camera, reel and monitor into a compact package. It's packed with features like a big 7" LCD color monitor for crisp, clear pictures, one-touch recording, digital zoom, voice-over recording, date and time stamp, and flash drive capacity indicator. The adjustable mount lets you set the monitor for the best viewing angle, wherever you're working.

The Command Module also includes a 3 ft. Probe Rod with color camera for inspecting hard to reach places. Three adapters are included to improve your viewing angle or to retrieve objects.

Just grab it and go! The full size X-POD features a self-leveling color camera and 200 ft. Gel-Rod[®] for inspecting 3" to 10" drain lines. The compact Mini-Reels carry 100 ft. or 200 ft. of Gel-Rod with mini self-leveling camera for trouble shooting 2" and 3" lines. The rugged steel frames and reels include a drag brake and reel lock. Full size reels include 10" wheels to more easily roll the camera to and from the job
