GASKET

- Field testable as required by ASSE 1052, pressure rated to 125 PSI, temperature to 140°
- Heavy pattern cast brass hydrant for use with or without brass or aluminum box
- Patented PRIER “triple seal” positive shutoff system offers triple redundancy to assure shutoff
- Tested to 250,000 cycles; designed to last the life of the plumbing system
- Heavy duty brass piping, significantly stronger than copper, with threaded and sealed joints
- Every hydrant comes with a wall clamping ring for more secure installation
- Gasket is included with every box and prevents water and air intrusion into the building
- Four box options including satin nickel plated(BX1), rough brass(BX2) or aluminum(BX3)
- Satin nickel plated round box (RB1) installs through 6” hole or 6” Schedule 40 PVC sleeve
